**Bosque Farms**

- ♦ Training session on a "hands only" version of CPR for the Public.
- ♦ This class will teach you the knowledge and skill set to help save a life!
- ♦ The only requirement is that any person participating must physically be able to produce effective chest compressions.
- ♦ Training takes approximately 1 hour and instructors will stay on location afterwards to answer any questions.
- ♦ Why is learning CPR Important? Statistics show that communities that participate in programs like this are proven to increase their survival rates by tremendous numbers! Studies are being conducted in areas where elementary level students are being taught CPR and the results are astounding! Survival rates have increased three fold and are continuing to rise!
- ♦ It is essential that we strive to keep our communities, families, and loved ones safe!
